ANASTASIA ERMAKOVA

Product Designer
Ukraine, Kyiv

SUMMARY

Dynamic and detail-oriented Product Designer with a strong foundation in QA automation and software engineering. Skilled in collaborating with cross-functional teams to develop innovative solutions while ensuring quality and efficiency throughout the design and development process. Experienced in leveraging technical skills to bridge the gap between design and engineering, resulting in high-quality products that meet user needs.

SKILLS

- Advanced problem-solving and analytical abilities honed through years of product design and QA automation.
- Advanced proficiency in English.
- Strong communication and teamwork skills, with experience collaborating across engineering, design, and product teams.
